

# TELECOMMUNICATION SERVICES

WHERE BUSINESS AND THE ENVIRONMENT CONVERGE  
800.789.3530 [www.ecsconsult.com](http://www.ecsconsult.com)

*Environmental Compliance Services, Inc. (ECS) is a pioneering, employee-owned environmental consulting firm that was created on the entrepreneurial spirit of its early founders. That spirit still runs true today as we work to create solutions that help you meet your unique requirements and goals. Some environmental issues are pretty cut and dried. But for others, a business needs a partner like ECS at the table - a partner who understands the issues inside and out, is qualified to untangle overlapping regulations, and works out a solution that's the least disruptive and the most practical and fair.*

# ECS can help make your telecommunications build-out a total success.

Environmental Compliance Services, Inc. (ECS) offers a comprehensive list of environmental services for the telecommunications industry. Our professionals average over 20 years of experience in environmental consulting, engineering and construction.

We can assist you with your due diligence and environmental compliance issues including Phase I Environmental Site Assessments (ESAs) in accordance with the ASTM 1527-05 AAI Rule, National Environmental Policy Act (NEPA) Checklist Reporting, Section 106 submittals including Federal Communication Commission (FCC) Forms 620/621, Newspaper Advertisements/Public Notifications, State Historic Preservation Office (SHPO) Consultation and FCC Environmental Assessments.

ECS also provides Threatened and Endangered Species Surveys, Wetland Surveys, Permitting, Osprey and Eagle Nest Assessments and Nest Removal and Replacement Permitting services to ensure compliance with NEPA.
